PATENT

REMARKS/ARGUMENTS

Restriction Requirement

Applicants provisionally elect, with traverse, the alleged species to which claims 8-19 are drawn, for examination. Applicants make no representations by this election regarding the merits of the restriction requirement, the scope of the originally presented claims, the possible existence of multiple distinct inventions or species, any combination/subcombination relationship between the claims, or any relationship between any product and/or process. Applicants agree to withdraw the alleged species to which claims 1-7 are drawn, without prejudice and reserve the right to file them in a later application.

Applicants respectfully submit that claims 1-19 are amenable to being examined without imposing a serious burden on the examiner. Accordingly, applicants request that the examiner reconsider this restriction requirement after an initial search has been conducted. The examiner is encouraged to contact the undersigned attorney, Raymond N. Scott Jr. at (215) 564-8951, to discuss resolution of any remaining issues.

Conclusion

In view of the foregoing remarks, applicant submits that this application is in condition for allowance.
